

SAMVESH

Computer Science Engineering Student

- +91 99141 09971 • samveshsaini@gmail.com
- linkedin.com/in/samvesh-saini • github.com/Samvesh
- Khanauri, Sangrur, Punjab

SUMMARY

CSE student with full-stack oriented experience building and deploying production-grade web applications. Skilled in React, Node.js, MongoDB, and REST APIs with a strong foundation in DSA, OOP, and cloud deployment .

EXPERIENCE

Intern

IMUN Virtual Internship Program Remote

- Coordinated with 15+ peers and mentors; managed outreach campaigns with 100% on-time delivery across all assigned responsibilities.
- Applied CRM basics (LeadSquared) for student lead tracking, pipeline management, and nurture outreach.
- Contributed to customer-facing communication campaigns, improving response rates and engagement.

EDUCATION

B.E Computer Science & Engineering 2026
Chandigarh University CGPA: 7.8

Higher Secondary 2022
Helix Oxford Smart School PCM: 77%

Secondary School 2020
Ganga International School 75%

CERTIFICATIONS

Coursera: 4G & 5G Fundamentals · Intro to AI · Big Data Analytics · Cybersecurity Basics · Industrial IoT · Engagement & Nurture Marketing · Java Full Stack Developer

NPTEL: IoT (78%) · Cloud IoT Edge ML (70%) · Multi-Core Architecture (68%) · Foundations of Cryptography (70%)

LinkedIn: Critical Thinking & Problem Solving · Thinking Creatively

SKILLS

Languages: JavaScript, Python, Java, C++, C, SQL, HTML, CSS

Frameworks & Tools: React, Vite, Node.js, Express.js, FastAPI, Tailwind CSS, Chart.js, Leaflet, Pygame, Git/GitHub, Vercel, Render

Databases: MongoDB, Mongoose, ChromaDB, File I/O

AI & ML: RAG Pipelines, OpenAI Whisper, SentenceTransformers, Gemini 1.5 Flash, Vector Embeddings

Concepts: REST API, SSE Streaming, JWT Auth, DSA, OOP, DBMS, OS, AI/ML, IoT, CI/CD

Soft Skills: Leadership · Team Collaboration · Critical Problem Solving · Creative Thinking · Time Management

PROJECTS

VideoIQ – AI-Powered Video Performance Auditor
React · Vite · FastAPI · ChromaDB · RAG · SSE · Apify · Vercel · Render

- Deployed production RAG dashboard enabling side-by-side YouTube vs Instagram Reel audits; concurrently fetches metadata via YouTube Data API v3 and Apify, and indexes them into a persistent ChromaDB vector store using BAAI/bge-small-en embeddings.
- Engineered a real-time streaming AI chat (SSE) with session-isolated RAG context retrieval, cited chunk references, and pre-loaded common questions in the UI for instant one-click analysis.
- Deployed full-stack on Vercel (frontend) and Render (backend); built multi-layer fallback systems to handle YouTube cloud restrictions, Live <https://videoiq-rag-chatbot.vercel.app/> .

Fruitora – Full Stack Nutrition Platform

React · Node.js · Express.js · MongoDB · JWT · Tailwind CSS

- Production app with JWT auth, live USDA nutrition API, Chart.js graphs, Leaflet maps, recipe recommendations, and an admin analytics dashboard; REST API covers 12+ protected routes backed by MongoDB Atlas.
- Deployed on Vercel + Render with CI/CD via GitHub for auto-deployment on every push.
- Live: fruitoria.vercel.app · github.com/Samvesh/Fruitora-webpage

Bank Management System (Java)

Java · OOP · File I/O

- Built modules for account creation, deposits, withdrawals, and interest calculations across multiple simultaneous accounts.
- Applied OOP principles — encapsulation, inheritance, polymorphism — for clean, extensible code.
- github.com/Samvesh/Banking-Management-System-JAVA

Plane Shooting Simulation

Python · Pygame

- Real-time 2D arcade game with collision detection, progressive difficulty scaling, and live score tracking.
- Smooth sprite animations and responsive event handling delivering a polished gameplay experience.
- github.com/Samvesh/Plane-Shooting-Game

TECHNOLOGIES

JavaScript	Python	Java	SQL	CI/CD
React	Vite	Node.js	Express.js	FastAPI
MongoDB	ChromaDB	Tailwind CSS	JWT	
RAG	Whisper	Embeddings	Chart.js	Leaflet
REST API	SSE	IoT	Cybersecurity	
Git/GitHub	Vercel	Render	ML	OOP
